

# SIGNIFICANT ACHIEVEMENTS

## Fire Control

- Karratha Airport. 67,120 US Gal x 2 Fire tanks with customised fittings.
- Tower Colliery, Douglas Park. 89,983 US Gal Underground water services tank.
- Central Park Building. 17,264 US Gal x 2 Tanks on 50th floor.
- Foodland Warehouse. 81,618 US Gal x 3 Fire water storage tanks.
- Firemain Co, Marlows. 71,472 US Gal Fire water storage tank.
- Rockdale Beef. 18,149 US Gal x 2 Fire water storage tanks.
- R&L Deane. 87,306 US Gal Potable water storage tank.
- Christian College, Stanwell Tops. 67,120 US Gal Fire water storage tank.
- Vaughan Constructions. 143,441 US Gal Fire water storage tank.
- Volandu Constructions. 133,225 US Gal Fire water storage tank.

## Commercial and Industrial

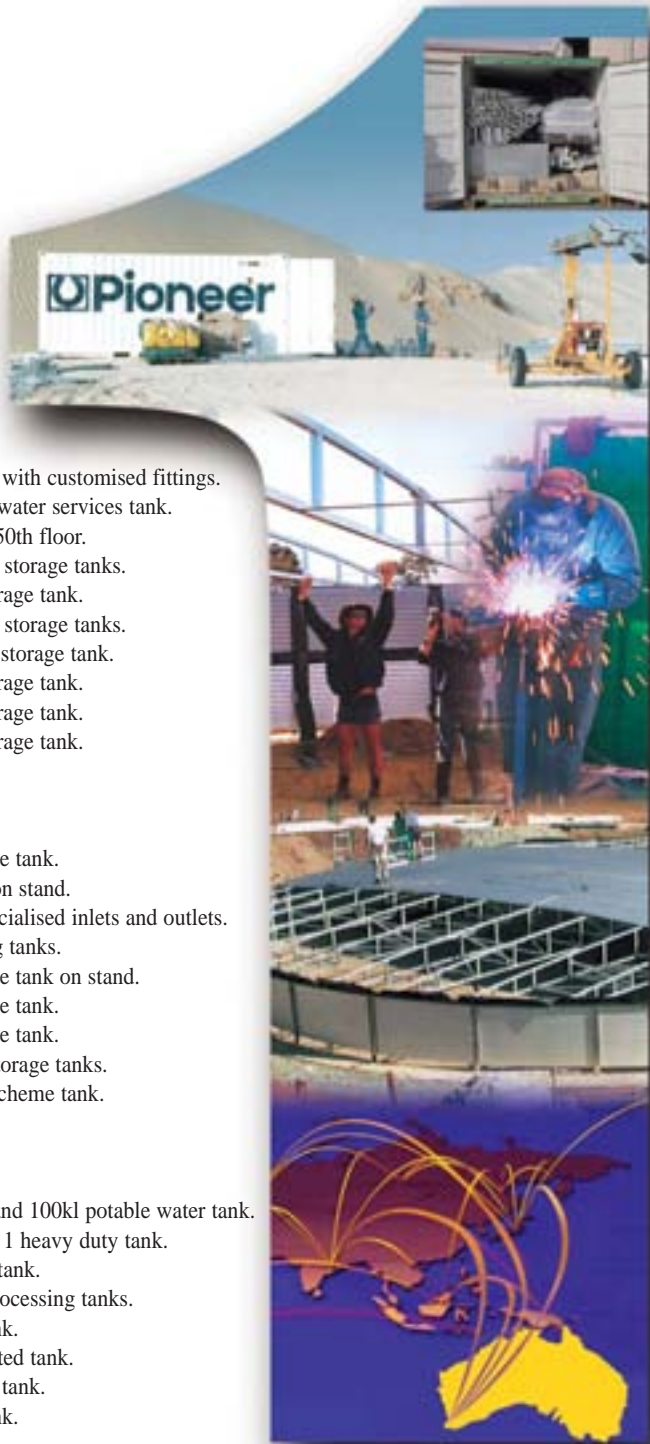

- Water Corporation of W.A. Dalyellup. 359,295 US Gal Potable storage tank.
- Water Corporation of W.A. Greenhead. 67,120 US Gal Storage tank on stand.
- Alcoa Refinery. 12,408 US Gal Tank with specialised inlets and outlets.
- Biada Poultry. 416,690 US Gal x 2 Processing tanks.
- Kiawa Murray Water Authority. 24,163 US Gal Potable storage tank on stand.
- Western Power Naval Base. 143,441 US Gal Potable storage tank.
- Warburton Community. 133,225 US Gal Potable storage tank.
- Bonlac Foods. 67,120 US Gal x 2 Effluent storage tanks.
- Ararat, Grampian Water. 335,741 US Gal Reuse water scheme tank.

## Mining and Exploration

- Bounty Mine. 67,120 US Gal Process tank and 100kl potable water tank.
- Robe River Iron and Associates. 192,279 US Gal Cyclone rated 1 heavy duty tank.
- Central Mines. 133,225 US Gal Process plant tank.
- Cannington Mine. 296,870 US Gal x 2 Storage/processing tanks.
- Bendigo Gold Mines. 67,120 US Gal Processing tank.
- Queensland Nickel Mine. 96,652 US Gal Chemical treated tank.
- Bricon Pty Ltd. 361,828 US Gal Process water tank.
- Lithgow Coal Co. 57,487 US Gal Raw water tank.

## International Projects

- United States of America • South America • Caribbean Islands • Brunei • Malaysia • Myanmar
- Philippines • Thailand • South Africa • Sudan • United Arab Emirates • Papua New Guinea
- South Pacific Islands • New Zealand

# BENEFITS OF A PIONEER GALAXY™ WATER TANK

**Company Strength** Pioneer Water Tanks ~ A BlueScope Water Company, was established with one goal in mind, to manufacture a quality water tank at a realistic price, and at the same time eliminate the problems associated with conventional water tanks. Pioneer Water Tanks is internationally recognized as a leading water storage tank manufacturer with a global reputation for stretching the traditional boundaries of design, embracing new technology and materials to provide clients with innovative solutions

**Service** Pioneer Water Tanks' highly dedicated commercial sales team has a wealth of experience. This ensures that every project is completed on time, within budget and most importantly in a professional manner.

**Quality Assurance** Constant upgrading and designing of programs and project management systems, installation procedures through to commissioning documentation and maintenance manuals are part of our ongoing commitment.

**Tank Design** All Pioneer Water Tanks are manufactured to stringent standards and independently certified by consulting engineers. Our in house engineering and drafting team can provide individual designs to meet your specific needs. This includes designing for earthquake zones, hurricane regions, and heavy industrial or highly specialized environments. The 8-80 V wall profile

has an aesthetic appeal with no protruding bolts due to the innovative, fully enclosed bolt cap. All of the design and attention to detail is backed up with only high quality materials and valid up to date engineering certification.

**Liners** During the past fourteen years the AQUALINER™ and INDUSTRIATEX™ water storage liners have proven their ability to the point where they are now considered the strongest and most versatile food grade liners available to the market. Using AQUALINER™ and INDUSTRIATEX™ water storage liners give a versatile, safe and effective medium for water storage. Should your storage needs be required for aggressive liquids, contact Pioneer Water Tanks for alternative liner materials.

**Associations** Pioneer Water Tanks is a member of various associations in the United States involved with the design of water systems and piping.

**Delivery** The unique and versatile modular design makes the Pioneer Water Tank ideal for transporting by road, sea or even by air for those hard to reach places.

**Installation** Thorough check methods are employed to ensure correct installation from beginning through to commissioning. Outlined procedures provide for ease of installation, less time on site, less site infrastructure and minimum construction personnel.

Fire service water storage tanks, 63,803 US Gal per tank, 19' 9" (Dia) x 27' 8" (Height)

Sizes from 5,000 to 700,000 US Gallons

Fire service water storage tanks, 48,305 US Gal per tank, 24' 2" (Dia) x 14' (Height)

The unique and versatile modular design makes the Pioneer tank ideal for transporting by road, sea or even by air for those hard to reach places.

Commercial: 401,175 US Gal

Mining: 335,741 US Gal

Commercial: 312,985 US Gal

Fire Fighting: 144,117 US Gal

Fire Fighting: 4,834 US Gal per tank

## Pioneer Values Client Feedback

"Just wanting to commend your team on a job well done! Work was undertaken in a professional manner. Safe working practises were clearly evident and the site safety requirements were observed. Daily progress updates were given.

It has been a pleasure having Pioneer Water Tanks crew working on the AGR Matthey Refinery Site at Newburn. We have no hesitation commending your company to other clients. Many thanks and once again well done for the excellent job."

Adam Dowsett - Plant Engineer, AGR Matthey, Newburn Refinery.
